

Call for Academic Positions

GEMA Center for Genomics, Ecology & Environment

The GEMA Center for Genomics, Ecology & Environment at Universidad Mayor of Chile is seeking to fill two Professorship positions (Assistant, Associate or Full) to contribute in one or more of the following research lines: environmental genomics or eco-genomics, microbial ecology, ecology of extreme environments, eco-toxicology, eco-physiology, ecological economics, biodiversity, ecosystem functioning, ecosystem services, or theoretical ecology.

GEMA supports undergraduate and postgraduate duties required by the Faculty of Sciences and the Office of the Vice Chancellor of Research, and also promotes outreach activities. The position considers joining a stable multidisciplinary team of research in genomics, ecology and environment, competitive salary, and tenured appointment. The position can be declared vacant if applicants do not fulfill GEMA needs.

Applicants must have a Ph.D. and postdoctoral experience. Candidates have to demonstrate experience developing independent research, capacity to collaborate in inter and multidisciplinary teams and be part of national and international networks of collaboration. Applicants for an Assistant Professor position must demonstrate the capacity to carry on independent research and teaching. Applicants for an Associate Professor position must demonstrate a solid scientific reputation, a strong publication record, research projects funded by recognized agencies, and undergraduate and postgraduate student formation. Applicants to a Full Professor position must demonstrate an outstanding research trajectory, formation of researchers at doctoral and postdoctoral levels, networks of collaboration with national and international research centers and experience in consultee panels.

Interested candidates must send the following information to: centro.gema@umayor.cl:

- Complete CV
- Two confidential letters of recommendation
- One statement letter describing the line of research that will be implemented, capacity and potential of incorporation to the academic activities developed by the GEMA Center and possible date of incorporation. Maximum two pages.

Deadline: Friday 12th October, 17:00 h.

Enquiries: centro.gema@umayor.cl
