Sociedad Chilena de Ciencias Fisiológicas

XXXIV Reunión Anual de la Sociedad Chilena de Ciencias Fisiológicas

Simposio Latinoamericano de Diabetes y Obesidad en el Embarazo (DOIPLA 2019)

September 8-11, 2019
Santa Cruz, Chile

Expositores y temas

Tamara Sáez (University of Alberta, Canada)
Exosomes and GDM placenta function

Gerardo García-Rivas (Tecnológico de Monterrey, Mexico)
Lipidomics in obese children with metabolic syndrome

Marijke Faas (University of Groningen, The Netherlands)
Preeclampsia and inflammation

Raheela Khan (University of Nottingham, UK)
Vascular reactivity in the placenta

Jane Cleal (University of Southampton, UK)
Maternal vitamin D and the placental epigenome, transcriptome and proteome

Lesslie Myatt (Oregon Health and Science University, USA)
Trophoblast respiration and fuel flexibility with obesity and gestational diabetes

Angela Myatt (Oregon, USA)
Medical libraries

Amanda Sferruzi-Perri (University of Cambridge, UK)

Placental endocrine control of maternal metabolism and its importance for long term health

Padma Murthi (Monash University, Australia)
Inflammasomes in diabesity

Udo Market (Jena University Hospital, Germany)
Trophoblast-immune cell communication via microRNA transported in extracellular vesicles

***Neva Kandzija** (University of Oxford, UK)
Placental extracellular vesicles in gestational diabetes

***Harry Van Goor** (University of Groningen, The Netherlands)
Mitochondrial thiosulfate sulfurtransferase in metabolic diseases

*to be confirmed
